

ABOUT US

wahu, Wall Hung Caseworks, is focused on providing unique healthcare cabinetry solutions that attach to DIRT Walls as well as conventional drywall.

- There are an unlimited number of cabinet sizes to work with due to our sophisticated parametric programming software combined with our CNC manufacturing equipment. Any size is standard, no matter the depth, height or width.
- Our product is extremely competitive in quality, function, and price.
- Our standard finishes are Wilsonart laminates and 3-D laminates by SSI North America.
- 3-D laminates provide the most durable solution to the market, including antimicrobial finish options and soft rounded edges that will not delaminate or chip.
- Delivery is fast - within 4 weeks on standard; 6–8 weeks on custom; however, we will take on the challenge to do something faster, when needed.
- Blum soft close drawers are standard. No other system comes close to the look and feel of this system. The rounded aluminum side rails offer a great design and a great benefit; they are simple to clean.
- We offer a 10 year warranty on the construction of our system. No corners are cut that would lessen the durability of our product.
- It is modular (detachable), so our products can be on a faster depreciation schedule of 7 years, not 39, which is of financial benefit to you.
- Our no-charge space planning with 3-D drawings and a complete quote (including delivery) takes only 3-5 business days.
- Detailed shop drawings with clearly labeled product are available, and our customer support staff will help guide you through the installation.

PRODUCTS

wahu standard products are designed and built to be the most durable, flexible, and affordable in the market.

Why we are so agile...

- All of our products are parametrically programmed, which means any size is available without a custom price tag.
- All of our projects deliver in 4 weeks.
- We will soon be on ICE specifying software.
- Installation is easy - simply mount to the **DIRTT** system with the bracket & antler system provided.
- Conventional installation to drywall or freestanding is just as easy.
- Quotes only take 3-5 business days.

Why we are so durable...

- Construction on the entire cabinet has metal to metal cam assembly and pocket screws.
- Our standard Blum motion soft-closing drawers feel and operate better than typical ball bearing suspensions.
- Blum 5-way soft closing adjustable door hinges are *standard*.
- Wilsonart laminates are *standard*.
- 3-D laminates by SSI are available & create soft edges so no delamination occurs.
- Antimicrobial 3-D laminates are available (testing a 99.997% reduction in e-coli and staphylococcus cells introduced on the surface).
- We offer a 10 year warranty, exclusive of normal wear and tear.

HEALTHCARE

*wahu is a partner of DIRTT Environmental Solutions.
